Welcome!

Welcome to the April 2012 issue of the Gemba Academy newsletter!

In this edition we're going to tell you about some new content and features, as well as give you a heads up on a major expansion of Gemba Academy.

We always enjoy hearing from you so please feel free to email us at academy@gembaacademy.com or call us at **1-888-439-8880**.

Thanks for your continued interest in Gemba Academy!

Best,

Webinars

Earlier this year we began offering occasional live webinars with prominent lean thought leaders. These webinars have proven to be very popular and help bring additional perspectives and knowledge to Gemba Academy subscribers.

Recent webinars have included:

- [Visual Management](#) with Mike Wroblewski
- [Continuous Improvement](#) with Mark Graban
- [SPC for Better Management Decisions](#) with Mark Graban
- [A Day in the Life of a Lean Supervisor](#) with Mike Wroblewski
- [A Factory of One](#) with Dan Markovitz

We have several more webinars in development, so watch for the announcements.

As always, recorded versions of these webinars are available to subscribers to the [Gemba Academy Complete Lean Package](#).

Spanish Subtitles

At the request of several subscribers, we've been working to add Spanish subtitles to Gemba Academy content. We have currently rolled out subtitled versions of the following modules and courses:

- Introduction to Lean
- 10 Commandments of Continuous Improvement
- 5S Workplace Productivity Course
- The Seven Deadly Wastes Course
- The Kanban Course
- The Kaizen Way Course
- Practical Problem Solving Course
- Quick Changeover Course
- Standard Work Course
- Value Stream Management Course

We are working hard to complete Spanish subtitled versions of all courses, after which we will look at other languages.

All subtitled versions are available to subscribers to the **Gemba Academy Complete Lean Package**.

Six Sigma Coming Soon!

We're very excited to announce that we're now in the production phase of creating an entirely new series of modules on Six Sigma!

Gemba Academy has developed what we think is the most robust six sigma content available, and we are in the process of converting it into highly effective and actionable learning modules in the Gemba Academy style. We also plan on offering a certification program.

We will be rolling out the videos modules as they are developed. Subscribers to the **Gemba Academy Complete Lean Package** will have access to them during this development period. After the course is complete we will be creating separate "schools" of lean and six sigma in order to better categorize and organize Gemba Academy content.

So please stay tuned as we'll announce when modules are available. Subscribers to the **Gemba Academy Complete Lean Package** will enjoy immediate access.
