Announcing Our New Series: Gemba Live!

You've watched the lean and six sigma training videos. Now it's time to see how those concepts are applied in the real world!

Announcing **Gemba Live!** - a new series of videos **[included in the Gemba Academy School of Lean.](#)**

Gemba Academy is very excited to announce a new series of videos filmed at some of the most innovative and passionate lean organizations! We will take you into their operations, onto their shop floors, and interview their leaders and team members.

Seeing lean in action is one of the most powerful ways to show your team that, yes, lean can really work.

Gemba Academy is fortunate to have contacts and fans at some of the best organizations in the world. These organizations and their leaders have graciously agreed to share their successes, and lessons, with our subscribers.

We just launched the new Gemba Live! series with a company many of you will recognize, FastCap in Bellingham, Washington, lead by Paul Akers. With **22 video modules** (and more on the way!), we'll show you how lean has transformed every aspect of the company, even how the bathrooms are cleaned.

The Gemba Live! series is **[included with your School of Lean subscription](#)** and can be found at the end of the video and group list. A sample video is also in the Free Preview.

Interested in being featured as part of Gemba Live?

We have already filmed at a second organization, a medical device company in California, and will be bringing you those modules in April. If your organization is interested in showing us, and our subscribers, your lean efforts, or if you know of a company that should be featured, please **[contact us.](#)**
